FIG. 1

* in excess amount

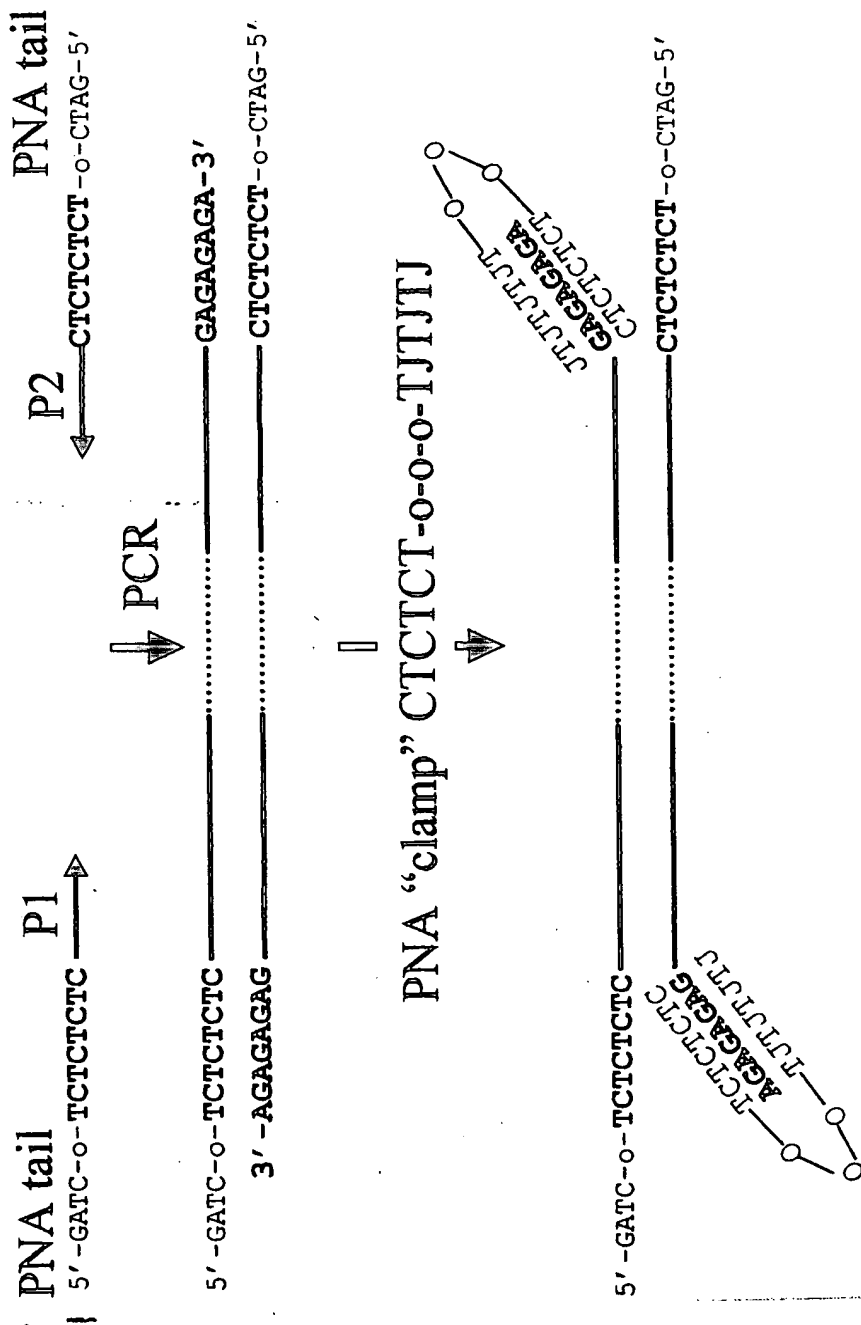

Figure 1 displays 12 histograms showing the distribution of the number of nodes in the network at different times. The histograms are arranged in two rows of six. The top row shows distributions at times 0, 10, 20, 30, 40, and 50. The bottom row shows distributions at times 60, 70, 80, 90, 100, and 110. The x-axis for all histograms is 'Number of nodes' ranging from 0 to 100. The y-axis is 'Frequency' ranging from 0 to 10. The distributions are unimodal and shift to the right as time increases, indicating a growing network size.
